

H.W. 13th July 2026

1. Write a C++ code a class Student
find out the space (size of the
object)

Hint

```
#include <iostream>  
using namespace std;
```

```
class Student
```

```
{
```

```
    int Rollno; (8)
```

```
    String Branch; (32)
```

```
    public:
```

```
        Student ()
```

```
{
```

```
    cin >> Branch >> Rollno;
```

```
}
```

```
void display ()
```

```
{
```

```
cout << branch << Rollno;
```

```
}
```

```
};
```

```
int main ()
```

```
{
```

```
student s;
```

```
s.display();
```

```
cout << size of (s);
```

```
}
```

O/P: Branch: CSE

Roll no: 28
